General and Revenue Secretariat. | LB File No. 78 of 1918

Serial No.

13) Total contributions paid to the Public Works Department under 17½ and ½ per cent levy.

The contributions paid for 5 years under this head is put up separately for each district in the statement below (Flag V). The average for the whole State for 5 years works out at Rs.62,043 per annum.

14) Total expenditure on District Fund Roads during the past 5 years.

Expenditure on road repairs is not separately -- shown in the accounts received. The total expenditure incurred on repairs-mainly of roads-for the 5 years amounted to Rs.14,81,112 . The average annual outlay on repairs of District Fund Roads in the P.W.D may be taken at about Rs.2,96,223.

15) Rules in force as to how Presidents of ~~District~~ of District Boards are kept informed of progress of road works

The Presidents of District Boards are not kept informed of the actual progress of road works nor of the precise portion of the roads that are under repairs. Under rule 119 of the L.B.Rules a statement of expenditure incurred on each work is furnished to the President every month by the Executive Engineer

16) How are contracts given for spreading ~~or~~ and collection ?

According to Chief Engineer's circular --

NOTE—Contn. sheet.

Serial No.

circular No.10 of 27-5-13, the collection of -- materials is done from January to May and spreading from June to December. No collection is permitted while consolidation is in progress.

17) The contracts for the repairs of roads are -- generally given out on the piece-work system. No tenders are called for. The roads are, for purpose of repairs, parcelled out into recognised units and each unit entrusted to a reliable and competent -- contractor who lives in a village near the unit concerned. The Executive Engineers are competent to -- select the contractors for repair of roads.

18) How are final payments made ?

A separate estimate is passed for each kind of work such as collection, spreading & consolidation etc, under road repairs for each unit. Practically each bill is final so far as the work referred to therein is concerned. Hence a final bill for the road work as a whole is not prepared by the D.P.W and payments made are also for piece-work. ~~[illegible]~~ Though the estimates for annual repairs are closed and completion reports sent, the accounts of piece-workers are kept open ~~for ever~~ vide para 46 This -- system has been condemned by Mr. Datta (Vide page 174 of Vol.I of his reviews and reports on the -- Finances and Accounts of the State.

expenditure without any reference to the Distric Boards. Vide Government Order No.5881-92 L.B.27-C 6 of 4-12-05. The District Boards do not keep detailed accounts for works executed by the P.

D

2) The only means of revising the present syster would be either (1) to have a separate Engineer establishment under the control of local Boar as in Madras Presidency or (2) to give greater powers of control to District Boards on works executed by P.W.D. The latter arrangement ca done if completion certificates from Presiden District Board are required to be submitted b P.W.D. In the revision of the Local Board ru also provision will be made for the appointme work-committees from among the members of the local bodies to inspect and report on the exe tion of works.

Dated 16th September 1918.

33) Returned with compliments to the Secretary to Government. Revenue Department -

4) 2. Beyond prescribing a monthly report, there is nothing in the draft aiming at actual improvement on the present state of things. It has not also taken into consideration the procedure followed in the P.W.Department.

35) 3. The mileage allotment for each road is fixed, and this Department is not competent to distribute it as it likes. The only thing it does is to distribute the allotment for each road in certain fixed proportions for various heads of repairs, such as recoats. petty repairs, drainage, &c.; and this is done in exact accordance with the rules prescribed for State Fund roads

4. 36) No reference need be made to the District Boards on matters regulated by rules. It will be useless to ask them which furlongs have to be reccated, and which petty repaired, and so on. The executive officers have the fullest discretion in this matter regarding the State Fund roads, and there is no reason why they should be subjected to restrictions regarding District Fund roads

5. 37) Again, statements of precise portions of roads repaired every month are impossible to be got up. There is no reason for the notes of inspection being sent to the Presidents of District Boards. The latter part of para 2 of the draft is being attended to now—

6. 38) The draft, as it is, has not my concurrence The observations on which the order is sought to be based do not seem to be altogether correct.

Revision of the system of management and control of Local Fund Roads.

Proceedings of the Government of His Highness the Maharaja of Mysore.

R e a d.-

Government Order No. 5881-92/L.B.27-05-6 dated 4th December 1905, directing that the Public Works Department may, without further reference to Local Fund Boards, deal with the distribution and utilization of the mileage allotments for annual repairs of roads and that estimate for special repairs of roads or other works, when sent to the President for countersignature should be placed before the Board for sanction.

Order No. 9280-94 LB78-18-1;

Dated Bangalore, 24-1- 1919.

Under the Government Order read above, the Public Works Department has full discretion in distributing and utilising the mileage allotments provided in the District Fund Budgets for annual repairs of roads, without further reference to the Boards concerned. As such, the Presidents have no means of knowing the nature of the work undertaken during the year by the Public Works Department. In order, therefore, that the District Boards may be kept informed of the progress, from time to time, Government are pleased to issue the following instruc-

Government Order No. 5881-92—L. B. 27-05-6, dated 4th December 1905, directing that the Public Works Department may, without further reference to Local Fund Boards, deal with the distribution and utilization of the mileage allotments for annual repairs of roads and that estimates for special repairs of roads or other works, when sent to the President for countersignature, should be placed before the Board for sanction.

Order No. 9280-97—L. B. 78-18-1, dated 24th January 1919.

Under the Government Order read above, the Public Works Department has full discretion in distributing and utilising the mileage allotments provided in the District Fund Budgets for annual repairs of roads, without further reference to the Boards concerned. As such, the Presidents have no means of knowing the nature of the work undertaken during the year by the Public Works Department. In order, therefore, that the District Boards may be kept informed of the progress, from time to time, Government are pleased to issue the following instructions :—

(1) Executive Engineers should, in future, open in the schedule of monthly expenditure—furnished to the District Boards—an additional column showing the progress made during the month on road repairs and the precise portion of the roads repaired.

(2) Executive Engineers will also forward to the Presidents of District Boards, through the Deputy Commissioners, copies of their notes of inspection of District Fund roads (omitting instructions of a purely technical nature), if they are of sufficient importance.

(3) The schedule of expenditure should be placed before the District Boards for consideration, and on receipt of the resolutions, if any of the District Boards thereon, the Executive Engineers should take such action as may be necessary to give effect to the said resolutions.

(4) Copies of all estimates sanctioned for road repairs under District Funds should be forwarded to the Presidents of District Boards for information.
